🏛 National Institute of Technology Kurukshetra

India, the land of seekers, is at the cusp of becoming Vishwa Guru all over again after 1100 years of subjugation, wars, annexures and humiliation. It is again a free country due to the sacrifices made by our leaders, freedom fighters and has learnt the art of standing tall in the midst of many a challenge of building the nation with its rich diversity, cultures, languages all over again since the last 75 years. Unity in Diversity is our mantra while making our nation stronger in every sphere.

I heartily welcome everyone who visits the website of this institution

Training & Placement

Centre for Career Development (CCD) is to assist students in their career exploration and successful job search and to successive placement. The centre provides regular guidance to the students regarding their career ambitions. The aim and objective of the centre is to motivate student to adopt career oriented mindset in conjunction with job orientation. The centre facilitates convenient interface for the companies to interact with students so that it is mutually beneficial for both the student mass and for industry and corporate sectors. Such programs could inspire and motivate young talent towards core engineering sectors in order to meet the demands of the corporate world staging a drive for national progress and to become diligent citizens.
